KARLSSON RHT (Right Hand Tuning)

Unfortunately, we had to temporarily discontinue Karlsson due to model overload and a change in our manufacturing techniques, but then the following happened:

A customer asked us for a **light weight version** of a 6-string with 18 mm string spacing. It quickly became clear that we could only reach the weight specifications in our Right Hand Tuning design.

Because he wanted so much the asymmetrical Herr Schwarz body with its distorted, dynamic contour, we had to make space for the tuning screws
Rasp rasp rip rip. And there it was, the new asymmetrical body shape with RHT bridge.

Only days later I noticed that Karlsson had sneaked back into our program in a sneaky way, because he didn't want to sit on the reserve bench any longer.

Basic configuration:

Body:	Ash
Neck:	Bolt on padouk, scale length: 86,4 cm (34 inches), carbon inside, Le Fay PIPE
